

STRIKERS SHED BLOOD IN LEADVILLE.

State Militia Called Out to Restore Order.

SHIP FOR UNION IRON WORKS.

San Francisco Firm Gets Contract for 30-Knot Boat—Attitude of New York's Democratic Candidate—Stands for Gold and Will Fight on State Issues—Gold Men in Kansas.

LEADVILLE (Col.), Sept. 21.—At 1 o'clock this morning three heavy explosions aroused sleepers in the eastern part of the city for blocks around the Coronado mine, which is the one which first resumed operations and which was heavily barricaded and well stocked with provisions and arms.

The explosions were followed by a fusillade of rifle shots, apparently from within the barricade, and rapid but irregular shots from outside, apparently from a widely scattered attacking force, who were on hand to protect the retreat of the dynamiters. The shooting lasted for ten minutes, and all was silent for about five minutes, when desultory firing was renewed, and has been kept up ever since. At this writing (1:45 o'clock) another explosion was heard, sounding like dynamite. Ten minutes after the first explosions a telephone message from the Coronado stated that nobody inside the barricade had been hurt. Since then it has been impossible to reach the Coronado by telephone.

This office is now being watched by several bands of men grouped in dark corners and alleys, and this may mean that they propose to prevent any communication with the telegraph offices, the watchers not knowing that we have the leased wire and long distance telephone.

The city is in a panic of fear. County and city officials are out looking after the work of the police and Sheriff. Bullets frequently whistled over this office, and altogether the situation is warlike.

STORY OF THE STRIKE.

How the Leadville Trouble Commenced.

LEADVILLE, Colo., Sept. 21.—The miners' strike, of which tonight's lawlessness is the outcome, began three months ago yesterday, when, at 11 at night the men in two or three of the leading mines walked out. The union scale of wages in Leadville was \$3 for everybody, but in 1892, when the price of silver dropped below 60 cents an ounce, an agreement was made that \$2.50 should be accepted for some classes of work until silver should return to 83 cents. This agreement the miners afterward declared was unfair, as many of the mines paid large dividends. It was to enforce the original scale of \$3 that the men struck. About 3,000 men were involved.

Within the last two weeks several mines have resumed work, and this week the output has been 1,200 tons daily, against 2,000 tons before the strike.

MORE TROOPS CALLED OUT.

The Entire State Militia to Take the Field.

DENVER, Sept. 21.—At 2:30 o'clock this morning Sheriff Newman of Leadville and Judge Owens of the District Court of Lake county called upon Governor McIntyre for troops to quell the riot at Leadville. The Governor at once issued the call, and before daylight the entire military force of the State will be en route to the scene of the trouble. The troops from this city, two infantry troops and a battery, will reach Leadville by noon.

3:45 a. m.—Twelve hundred militiamen will be sent to Leadville today. The Governor has issued the order to that effect. At 3:40 o'clock the news that the Emmet and Marion mines had been attacked decided the Governor to intervene with armed force.

Scarcely had the order been issued before a message was received from Sheriff Newman confessing that he was utterly powerless to cope with the situation, that he had been ordered away from the burning mine by the strikers, and that a reign of terror existed.

LEADVILLE, Sept. 21, 3 a. m.—Before night Leadville will be converted into a military camp. Troops will be on the way this morning. That much has been decided upon. At a conference held between Judge Owens and Sheriff Newman it was decided to ask for the entire armed force of the State, and word was accordingly wired to the Governor at Denver.

WILL BUILD BIG SHIPS.

Union Iron Works Gets Contract for Torpedo Boats.

WASHINGTON, Sept. 18.—The reception of proposals for the torpedo boats authorized by the last session of Congress attracted an unusual crowd of boat builders from both coasts of the United States, including many who had not hitherto taken an interest in Government work. Among those present, in addition to the naval officers attached to the department bureau, were Wolfe & Sewick of Portland, Ore., and Henry T. Scott of San Francisco. Secretary McAdoo to go ahead and award the contracts for the three battle ships. Formal contracts will therefore be entered into tomorrow with the successful competitors for one ship each—the Newport News Company for \$2,595,000, the Cramps for \$2,650,000 and the Union Iron Works for \$2,674,000. The Union Iron Works contract will be for 30-knot torpedo catchers.

SIZED UP BY MANLEY.

Review of the Result in the State of Maine.

CANTON (O), Sept. 15.—Major McKinley received the following telegram from Augusta, Me., this morning:

I offer you hearty congratulations. This is your triumph. The Republican party has achieved the most sweeping and magnificent victory ever accorded any party in the history of Maine. We have carried every county in the State, elected every State Senator and at least 150 out of 155 members of the House of Representatives, secured every county official, given each the national House of Representatives the largest majority ever recorded, elected our candidate for Governor by the largest majority ever given a candidate for that high office, endorsed the St. Louis platform and declared for McKinley and Hobart by 50,000.

The Republican vote exceeds by several thousand the largest Republican majority vote heretofore given and the vote for the Democratic candidate for governor is the smallest cast with one exception, the vote of 1894, which was only 3000 less. We have kept pace with Vermont and proven to the country that the Democratic platform adopted at Chicago will not prevail when met by argument and reason. We have been aided in this great contest by many Democrats, who have placed country above party and who believe that you cannot divide the people into parties on a question of simple morals and common honesty. They share our victory with us. What more could Maine have done for the cause of good government, honest money and protection?

NEW YORK DEMOCRACY.

Candidate for Governor Declares for Gold Standard.

ALBANY, N. Y., Sept. 20.—By making an official statement late tonight of his official position upon the financial question, and by declaring in that statement that he is unalterably for gold, John Boyd Thatcher, Democratic nominee for Governor, creates one of the most curious situations ever known in the politics of this State.

The statement was issued after a long conference with Senator Hill, Elliot Danforth, who was at Senator Hill's house, and Herrick, the Democratic leader in this county. It was addressed to the chairman of the State committee. It is believed that this course is approved by Senator Hill, William F. Sheehan and others not in attendance at the State convention, and is intended to try and throw off any nomination of a second Democratic ticket at Brooklyn and enforce a fight at the polls on State issues, leaving the National ticket entirely out of the question. Mr. Thatcher declares that he is against free silver, but will vote for Bryan and Sewall for regularity, and fight the campaign on State issues only.

AMERICAN WARSHIPS.

Two Vessels to be Added to the Mediterranean Fleet.

NEW YORK, Sept. 15.—The Sun's Washington special says: The assignment of two additional warships to the Mediterranean fleet is accepted as strong evidence of some expected decisive move on the part of some of the European powers in dealing with the Turkish situation, and while it is not admitted even yet that the Bancroft, which sailed today, is under orders to proceed to the Bosphorus, there is no longer the slightest question of her commission and that the Administration proposes that she shall be the United States guard ship of Constantinople, whether the Porte grants the necessary firman or refuses it.

Owing to over-crowding and bad ventilation, the air of the schoolroom is often close and impure, and teachers and pupils frequently suffer from lung and throat troubles. To all such we would say, try Chamberlain's Cough Remedy. For coughs, colds, weak lungs and bronchial troubles no other remedy can compare with it. Says A. C. Freed, Superintendent of Schools, Prairie Depot, Ohio: "Having some knowledge of the efficacy of Chamberlain's Cough Remedy, I have no hesitation in recommending it to all who suffer from coughs, lung troubles, etc." For sale by all druggists and dealers. The coin of our fathers! we're glad that we know it, for some time or other 'twill come in right well—the spreadeagle dollar, the star-spangled dollar, the old silver dollar we love so well.—Ex.
